Recommended Reading List U4

The U4 should see a transition stage in your reading as you try books with increasing complexity, both in terms of language and the ideas that they are exploring.

The following are suggestions which you might like to try, both teenage titles and ones aimed at adults.

All have been read and enjoyed by girls your age in previous years. Try and read something which you might not normally try!

All books are available in the Library.

If you would like more information about the plot check on the Library catalogue or Amazon which is full of useful views and opinions.

(in A-Z order of author).
